PC Data-Transfer Cable

The easy way to transfer data from your laptop or notebook.

FEATURES

» Maximize software you use to download files from two PCs.
» DB25 and DB9 connectors mean one cable handles all serial port styles.
» Easy-to-use thumbscrew attachment.

OVERVIEW

Eliminate the irritating hassle and time-consuming task of disk-swapping between your two desktop PCs or your notebook/laptop and desktop PCs. Now you can share files the easy way—with PC Data-Transfer Cables.

Use PC Data-Transfer Cables to connect two PCs through their parallel or serial ports. Then use a software communications program such as LapLink or DOS 6.x Laplink utility to facilitate the file transfer.

Direct file transfer cuts costs and time, plus it increases security. And you don't need to carry diskettes around—diskettes that can be lost, stolen, or damaged. Just attach one end of a PC Data-Transfer Cable to your desktop computer, and leave it attached for easy access.

The Parallel Cable is DB25 male to DB25 male, with 11 conductors. The Dual Serial Cable is DB25 female and DB9 female to DB25 female and DB9 female cable.

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.

TECH SPECS
