

In-Line Surge Protector, RS-232 (DB9 9-Wire)

Get convenient avalanche diode protection for your RS-232 DB9 connections.

Put avalanche diode technology where you need it.

Specifications

Application: RS-232 Ground Wire: Yes

Maximum Shunt Capacitance: <30 pF

Peak Pulse Current: 60 amps

Pins Protected: All

Protection Type: Avalanche diode technology

Response Time: <5 ns Series Resistance: None

Standard Clamping Voltage: 18 volts

Connectors: (1) DB9 M, (1) DB9 F

The SP361A-R2 DB9 Surge Protector is a bipolar device (protects against positive or negative surges) that guards against induced transient or surge energies caused by nearby AC power lines, lightning strikes, and static discharge.

What's included

- In-Line Surge Protector
- Specification sheet

For installation instructions, turn this page over...

Installation Steps

- 1. Disconnect the cable from the equipment's serial port.
- 2. Connect the surge protector to the equipment's serial port.
- 3. Connect the ground wire to the equipment chassis.
- 4. Reconnect the communications cable to the surge protector.
