# USB 3.0 Display Adapters Quick Start Guide

---

## 1. Installing the Driver

**CAUTION: DO NOT connect the USB 3.0 to DVI Adapter or the USB 3.0 to HDMI Adapter to a computer before installing the provided driver.**

### For Windows Vista/7/8 Users

- A. Click "Run Setup.exe" to execute the installer program.
- B. If you encounter a "User Account Control" dialog box when attempting to install a program, enter an administrator password or click "Allow/Yes" to start the installation.
- C. The License agreement prompt will appear. Click "I Accept" to start the driver installation.
- D. Click "Yes" to restart or "No" to manually restart later if a prompt to restart the computer appears.

### For Windows XP Users

- A. The License agreement prompt appears. Click "I Accept" to start the driver installation.
- B. Click "Yes" to restart or "No" to restart manually later if a prompt to restart the computer appears.

## 2. Making the Connection

- A. Connect the USB 3.0 to DVI or HDMI Adapter to a monitor and a computer. The screen may temporarily go black or flash during the process.
- B. The reminder message will appear on the system tray when the operating system detects the adapter.

## 3. Changing the Display Mode

You can configure the add-on monitor to Mirror mode, Extended mode, or to be the Primary display.

### Utility

- A. Click on the Utility icon in the Windows System Tray.
- B. Select a preferred option, then click on it using the mouse.

## Windows Configuration

Position the mouse anywhere on the computer desktop, right-click and select “Screen Resolution” in Windows 7 and 8, “Personalize—> Display Settings” in Windows Vista, or “Properties—> Settings” in Windows XP.

**Black Box Tech Support: FREE! Live. 24/7.**

Tech support the  
way it should be.

Great tech support is just 30 seconds away at  
724-746-5500 or [blackbox.com](http://blackbox.com).

### About Black Box
